Dear Parent (s)

At VBS, we believe in the continuous and consistent academic growth of our pupil. Since each student is different in terms of learning ability, pace, academic standards, classroom learning and academic performance therefore the school has decided to offer remedial classes for some its students to support the learning gaps. The intensive remedial support will help the learners to consolidate their basic knowledge in English and Mathematics, master the learning methods, strengthen their confidence and enhance the effectiveness of learning.

The classes will be conducted on every working Saturday from 9-11 a.m.

Regards
